

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PUBLIC LIBRARY OF THE

FICTION

1850

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995 (Department of Health 1996).

There is a growing emphasis on the need to improve the efficiency of the public sector, and to ensure that the public sector is able to deliver the services that are required by the public. This has led to a number of initiatives, including the introduction of competition, the restructuring of public sector organisations, and the introduction of performance measures. The aim of these initiatives is to ensure that the public sector is able to deliver the services that are required by the public, in a cost-effective and efficient manner.

One of the key initiatives in the public sector is the introduction of competition. This has led to a number of public sector organisations being privatised, and to a number of public sector organisations being required to compete for contracts. This has led to a number of public sector organisations being required to improve their efficiency, and to reduce their costs. This has led to a number of public sector organisations being required to improve their performance, and to ensure that they are able to deliver the services that are required by the public.

Another key initiative in the public sector is the restructuring of public sector organisations. This has led to a number of public sector organisations being merged, and to a number of public sector organisations being reorganised. This has led to a number of public sector organisations being required to improve their efficiency, and to reduce their costs. This has led to a number of public sector organisations being required to improve their performance, and to ensure that they are able to deliver the services that are required by the public.

A third key initiative in the public sector is the introduction of performance measures. This has led to a number of public sector organisations being required to measure their performance, and to report on their performance. This has led to a number of public sector organisations being required to improve their efficiency, and to reduce their costs. This has led to a number of public sector organisations being required to improve their performance, and to ensure that they are able to deliver the services that are required by the public.

These initiatives have led to a number of public sector organisations being required to improve their efficiency, and to reduce their costs. This has led to a number of public sector organisations being required to improve their performance, and to ensure that they are able to deliver the services that are required by the public. This has led to a number of public sector organisations being required to improve their efficiency, and to reduce their costs. This has led to a number of public sector organisations being required to improve their performance, and to ensure that they are able to deliver the services that are required by the public.

These initiatives have led to a number of public sector organisations being required to improve their efficiency, and to reduce their costs. This has led to a number of public sector organisations being required to improve their performance, and to ensure that they are able to deliver the services that are required by the public. This has led to a number of public sector organisations being required to improve their efficiency, and to reduce their costs. This has led to a number of public sector organisations being required to improve their performance, and to ensure that they are able to deliver the services that are required by the public.

These initiatives have led to a number of public sector organisations being required to improve their efficiency, and to reduce their costs. This has led to a number of public sector organisations being required to improve their performance, and to ensure that they are able to deliver the services that are required by the public. CATALOGUE

OF

ENGLISH PROSE FICTION

JANUARY, 1901

PART I. AUTHORS

PART II. TITLES

BROOKLINE, MASSACHUSETTS
PUBLISHED BY THE TRUSTEES

1901

G. A. L.

THE RIVERDALE PRESS
C. A. W. SPENCER
HARVARD SQUARE, BROOKLINE
MASSACHUSETTS

NOTICE.

Juvenile works are indicated by a "j" before the shelf number, and the "j" should be written on the slip in calling for such works.

The present catalogue includes, with few exceptions, all the English prose fiction in the library on January 1, 1901. Since the issue of the last Catalogue in 1895, 2,126 new titles have been added and are inserted in this edition; while the titles of books worn out and discarded have been removed.

Most of the historical notes have been omitted, as a special catalogue of the historical fiction in the library may be consulted on the premises, and a new edition for distribution is contemplated.

All of the works in the present catalogue, together with future accessions as received, will be found entered in the card catalogue.

HILLER C. WELLMAN,
Librarian.

PUBLIC LIBRARY OF BROOKLINE,
January 29, 1901.
